My child is an athletic club, so it's very helpful.
I no longer need to use a deodorant spray every day.
I didn't have to worry about washing once a week or if it would dry by the next day.
Thank you.

The shipment was smooth and arrived immediately.
I tried using it immediately, but I really like the sterilization and deodorant functions.
Great for my son's shoes in the athletic club.
It's rechargeable and lightweight to carry, so it's perfect for expeditions.

I like it

It arrived soon.
It is good because it is compact and does not take up space.
Above all, I was worried about the smell of my son's shoes in the athletic club, but I didn't.
I recommend it!

7.Product Instructions

- 1 Disassemble operating part from the body and put it in your shoes.
- 2 Press the power button 2~5 sec.
- 3 Press the mode button and choose the specific mode. Operating time will show up on LCD.
- 4 Press the start button to dry and sterilize. (Auto mode starts in 10 sec to check the inside.)
- 5 Put operating part back to the body when drying and sterilizing are complete. And then put your dry shoes on!
